

URBAN STUDIES & PLANNING: POLICY & PLANNING, BA

For the degree of Bachelor of Arts Major in Urban Studies & Planning, Policy & Planning Concentration

The Department of Urban and Regional Planning offers a program leading to the degree of Bachelor of Arts in Urban Studies and Planning. The aim of urban planning is to sustain and enhance the quality of life in cities and regions. Therefore, in addition to technical skills, students also acquire a broad liberal education that leads to an understanding of the natural and social environments, their problems, and their potential for enriching human life. The urban planning degree emphasizes skills in analysis, problem solving, and communication within complex urban and social contexts. As a result, undergraduate planning education leads to diverse professional careers or graduate study in urban planning or related professions, such as law, business, public policy or public administration. Continuation in the program requires the student to maintain a 2.00 grade point average. The degree is professionally accredited by the Planning Accreditation Board.

Concentrations: Admitted students are not admitted directly to a concentration. Students declare their concentration in the first or second year of study. Electing one of the four concentrations is required for graduation. The concentrations are transcriptable. Students may choose two concentrations, if they complete both gateway courses and distinct concentration courses, with no overlap. No more than two concentrations are permitted.

A transfer student must have completed 30 or more semester hours of acceptable undergraduate college work (including introductory courses in microeconomics, statistics, and sociology; a sequence in English composition is desirable) with an earned grade point average of at least 2.75 (A = 4.0). Transfer applicants not meeting these requirements will be considered in special cases.
