

NEUROSCIENCE, BSLAS

for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Neuroscience

The School of MCB's neuroscience curriculum combines the study of molecular and cellular biology with neuroscience, neurophysiology, neurochemistry, and neuro-pathology. Students will gain an understanding of brain function at multiple levels, from behavior and information processing to systems and integrative physiology. We use model organisms like fruit flies, fish, and mice, and we will explore cells at all levels, from the dish to cells functioning in animals. We seek to understand the causes of a variety of disorders, from neurodevelopmental to neurodegenerative disorders, from brain cancer to epilepsy, and to develop biomedical treatments for them. As a neuroscience major, you'll take a variety of cutting-edge courses and develop critically-important laboratory skills. Students conduct research alongside faculty who lead pioneering programs in sensory processing, neuroendocrinology, physiology of neurons and glia, regeneration, and cell signaling with advanced techniques, such as optogenetics and neuroimaging.

for the degree of Bachelor of Science in Liberal Arts and Sciences Major in Neuroscience

Minimum Required Courses: 83-84 hours including 29 hours of 300- or 400-level courses. 12 hours of advanced level courses in the major must be taken on the Urbana-Champaign campus.

In addition, undergraduate research (MCB 290) in an MCB Neuroscience-designated lab is strongly recommended for students planning to go to graduate school. No more than 10 hours of MCB 290 credit may be counted towards the 120 hours required for a degree in Neuroscience.

Students earning a degree in Neuroscience may not also earn a second degree in the Specialized Curriculum in Biochemistry.

Students earning a degree in Neuroscience may not double major in Molecular and Cellular Biology.

Distinction

Students in Neuroscience can qualify for Distinction via one of the following:

Distinction for Excellence in Research:

To be eligible for graduation with Distinction a student must:

Complete 3 semesters of MCB 290 for 2 credit hours or more each semester. Maintain a minimum cumulative GPA of 3.25 at the end of penultimate semester. Give at least one poster presentation at the Undergraduate Research symposium or other approved venue. Obtain a letter of support from their Principal Investigator.

To be eligible for graduation with High Distinction a student must:

Complete at least 2 semesters of MCB 290, in an MCB Neuroscience-designated lab, for 2 credit hours or more each semester. Complete 1 semester of MCB 492, in the same Neuroscience-designated lab, for 3 credit hours or more in their final semester. Maintain a minimum cumulative GPA of 3.25 at the end of penultimate semester. Give at

least one presentation at the Undergraduate Research Symposium or other approved venue. Submit a written thesis that is approved by the Distinction Committee. Obtain a letter of support from their Principal Investigator.

To be eligible for graduation with Highest Distinction a student must:

Complete at least 2 semesters of MCB 290, in an MCB Neuroscience-designated lab, for 2 credit hours or more each semester. Complete 1 semester of MCB 492, in the same Neuroscience-designated lab, for 3 credit hours or more in their final semester. Maintain a minimum cumulative GPA of 3.90 at the end of penultimate semester. Give at least one presentation at the Undergraduate Research Symposium or other approved venue. Submit a written thesis that is approved by the Distinction Committee. Obtain a letter of support from their Principal Investigator.

Distinction for Excellence in Academics:

To be eligible for graduation with Academic Distinction a student must:

Maintain a major GPA of 3.90 or higher in the Neuroscience major (MCB/Neuroscience, Chemistry, Physics and Math courses for the Neuroscience major) at the end of their penultimate semester.

General education: Students must complete the Campus General Education requirements, including the campus general education language requirement.

Minimum required major and supporting course work: 83-84 hours, including 29 credit hours of 300- or 400-level courses; 12 hours of 300- and 400-level courses in the major must be taken on this campus.

Minimum Hours required for graduation: 120 hours.

Code	Title	Hours
Supporting Courses		30-31
MATH 220 or MATH 221	Calculus Calculus I	
MATH 231 or STAT 212	Calculus II Biostatistics	
CHEM 102 & CHEM 103 & CHEM 104 & CHEM 105	General Chemistry I and General Chemistry Lab I and General Chemistry II and General Chemistry Lab II	
CHEM 232	Elementary Organic Chemistry I	
CHEM 233	Elementary Organic Chem Lab I	
PHYS 101 & PHYS 102	College Physics: Mech & Heat and College Physics: E&M & Modern	
Neuroscience Introductory Courses		11
MCB 150	Molec & Cellular Basis of Life	
MCB 170	Society and the Brain	
PSYC 100	Intro Psych	
Neuroscience Core Courses		13
MCB 250	Molecular Genetics	
MCB 251	Exp Techniqs in Molecular Biol	
MCB 252	Cells, Tissues & Development	
MCB 253	Exp Techniqs in Cellular Biol	
PSYC 210	Behavioral Neuroscience	

or PSYC 224	Cognitive Psych	
Advanced Neuroscience Courses		14
MCB 314	Introduction to Neurobiology	
MCB 354	Biochem & Phys Basis of Life	
MCB 460	Neuroanatomy Laboratory	
MCB 461	Cell & Molecular Neuroscience	
MCB 462	Integrative Neuroscience	
Advanced Neuroscience Elective Courses		
Five additional three- or four-credit hour courses (minimum of 15 hours) at the 300- to 400-level from the Approved Advanced Elective Courses List are also required. ¹		15
Total Hours		83-84

¹ The Approved Advanced Elective Course List will be available on the MCB website (<https://mcb.illinois.edu/undergrad/>) and will be updated each semester to most accurately reflect the courses to be offered each academic year.

Sample Sequence

This sample sequence is intended to be used only as a guide for degree completion. All students should work individually with their academic advisors to decide the actual course selection and sequence that works best for them based on their academic preparation and goals. Enrichment programming such as study abroad, minors, internships, and so on may impact the structure of this four-year plan. Course availability is not guaranteed during the semester indicated in the sample sequence.

Students must fulfill their Language Other Than English requirement by successfully completing a fourth level of a language other than English. See the corresponding section on the Degree and General Education Requirements page (<http://catalog.illinois.edu/general-information/degree-general-education-requirements/>).

First Year

First Semester	Hours	Second Semester	Hours
Free elective course		1 MCB 150	4
MCB 170		3 PSYC 100	4
CHEM 102		3 CHEM 104	3
CHEM 103		1 CHEM 105	1
Composition I or MATH 220 (or MATH 221)		5 MATH 220 (or MATH 221) or Composition I	5
General Education course		3	
		16	17

Second Year

First Semester	Hours	Second Semester	Hours
MCB 250		3 MCB 252	3
MCB 251		2 MCB 253	2
CHEM 232		4 CHEM 233	2
STAT 212 or MATH 231		3 PSYC 210 or 224	3

Language Other Than English (3rd level)	4	Language Other Than English (4th level)	4
		16	14

Third Year

First Semester	Hours	Second Semester	Hours
MCB 314		3 MCB 460	2
MCB 354		3 Advanced Neuroscience elective	3
PHYS 101		5 PHYS 102	5
General Education course		3 General Education course	3
		14	13

Fourth Year

First Semester	Hours	Second Semester	Hours
MCB 461		3 MCB 462	3
Advanced Neuroscience elective		3 Advanced Neuroscience elective	3
Advanced Neuroscience elective		3 Advanced Neuroscience elective	3
General Education course		3 General Education course	3
General Education course		3 General Education course	3
		15	15

Total Hours 120
